

JAINA DHANESH KHONA

I would like to complete my education BBA along with my passion of learning web development & various programming languages. After this i would love to gain experience & learn about new technologies along with my working profession. Also I am passionate about making my career in Web Development and Coding. I aim to combine my financial expertise and technical skills to solve real-world problems and create innovative solutions. I'm a lifelong learner dedicated to personal and professional growth.
